

Pleasing match (rift)

Real wood veneers

Veneer 1

Veneer 2

Veneer 3

Charakteristik

Veneers from different flitches are mix-matched. Harmonious colors and the fine, straight grain of rift veneers create a calm and elegant appearance. By selectively removing extreme colors and grain characteristics, a uniform overall look is achieved. Individual panels may exhibit slight variations in color and structure. Particularly suitable for large wall or ceiling surfaces with higher aesthetic requirements while minimizing material waste.

Attributes

- Calm appearance
- Sustainable

Type of grading

Suitable project size

Continuous areas up to 250 m²
