TOPPERFO® Micro Melamine eco-Collection

New Melamine coated boards can now be microperforated and thereby used as acoustically effective wall and ceiling coverings. The Eco Collection has ten standard finishes and are available in both fire classes. In addition, this collection is NAUF (no added formaldehyde) and stocked in the factory in Lungern.

Product advantage of eco melamine:
- 10 standard cutting-edge finishes
- Panels contain no added urea formaldehyde (NAUF)
- All panel designs in stock at NH
- A and C fire classes available
- FSC certified materials are available upon request

Dimensions and Materials: MDF 16 mm, normally flammable D-s2,d0 (US = C)
MDF 16 mm, fire retardant B-s2,d0 (US = A)

System firetest of all layers B-s1,d0

MDF 16 mm, fire retardant B-s2,d0 (US = A)

FSC-products on request

Sound absorption data acc. to ISO 354

Micro 2/2/0,5
Graphics: Sound absorption at suspension height 226 and 66 mm.
with acoustic fleece, Mineral wool: 40 mm (60 kg/m³)

Micro 3/3/0,5
Graphics: Sound absorption at suspension height 226 and 66 mm.
with acoustic fleece, Mineral wool: 40 mm (60 kg/m³)

For the white & grey options, the perforation pattern of approx. 150 x 150 mm is slightly visible. Therefore we recommend for these designs the perforation 2/2/0.5 or larger.

Available on request:
- Unperforated border
- Micro Graphic
- eco plus collection available with minimum order of 150 m²
- More melamine options
